Doug — agenda looks pretty good — I want to run it by Bob. As far as the order goes, it requires an analysis of the effectiveness of the ONCT within 30 days and an OM&M plan for the ONCT, a gw plume monitoring plan, an plan on how they are going to work cooperatively with the Navy to address the hot spot within 60 days. It is not much but a little more than I thought. I tried to attach the order before and it was too big but trying again as Steve managed to send it to the Navy. Jim H

Hi Jim

It looks good. I'd suggest adding a bit more meat to the BWD agenda items. I tried to do that in a subtle kind of way (see attached)....see if you think it works.

Also, I had a comment on your comment that related to my impression that NG has to submit some sort of workplan to you under the order regardless of whether the Navy does not perform. I thought it was due within 30-45 days of order signature. I realize they don't take over Navy work until you guys tell the Navy they are not in compliance...but thought they still had a workplan to submit in meantime??

Doug — does this reflect what we discussed. If you think it is OK, I want to run it by Bob before it goes out. Thanks Jim H
